### **DETAILED ACTION**

This action is responsive to the amendment filed 03-20-2006, which has been entered.

Claims 2-15 are allowed.

### ***Reasons for Allowance***

1. The following is an examiner's statement of reasons for allowance: the prior art fails to anticipate or render obvious the combination of a splines lubrication apparatus as set forth in claims 6 and 15, and most significantly requires a rotatable sleeve which defines an internally splined bore, cooperates with a bearing that supports a gear on a housing, an insert having a cylindrical surface defining externally extending splines which cooperates with the splined bore of the sleeve and wherein the insert also cooperates with splines of a rotatable shaft. Claim 15, requires an annular shield disposed in one of the extremities of a bearing for diverting a portion of the flow of lubricant through the bearing into the splined sections, wherein the annular shield having an inner and outer rim is divided into equidistance spaced segments such that the ring permits anchoring of the shield to the bearing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
